A STORM CENTEROFFICIALS ARE WATCHING SITU-
ATION VERY CLOSELY.

FEW DISTURBANCES AS YET

State Constabulary Doing Picket Duty
and Police Are All On Strike

[BY ASSOCIATED PRESS.]
Philadelphia, Pa., March 5.—Phila-
delphia is again the strike center of
the United States and though there
have been no disturbances as yet the
police and city authorities are most
vigilant and all police are on special
strike duty and not allowed to have
even their sleeping time away from
the station house.

State Constabulary.
The state constabulary is still at
work and rushing to all sections of
the city where there is any sign of
disturbance and ready for im-
mediate service. They are an essential
feature in the preserving of peace in
the city at the present time.

Figures Less.
Both the strikers and the car com-
pany remain firm and there is no in-
dication of either side yielding as yet.
It is apparent from a careful review
of the situation that the strike leaders
have not been able to call out as
many men as they expected and it is
reported that but fifty thousand quit
work last night.

Stops Building.
Many of the large buildings in pro-
cess of construction have been
stopped by the strike and the theatre
and hotel orchestras it is said will
not return to work until after the
trouble is settled. Almost all lines of
business are affected by the trouble
where union labor is employed.

Call On Governor.
The Governor has been called upon
to send troops to the city should they
be needed and every national guard
officer has been notified for an emer-
gency call should his regiment or com-
pany be called into active service in
rioting begins.

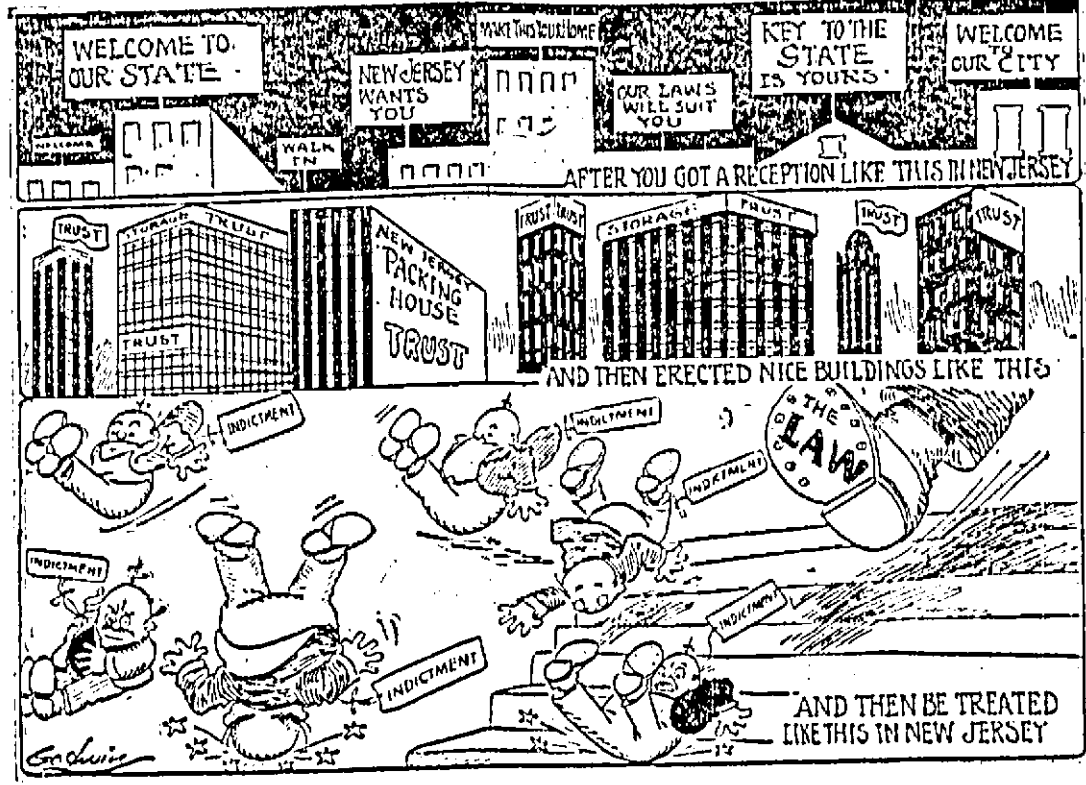

May Close Saloons.
The department of public safety is
seriously considering a plan to close
all the saloons in the city and this

EVENTS OF COMING
WEEK FORESHADOWEDInteresting Political Climaxes at Al-
bany, Seattle, and Detroit—Sensa-
tional Probes and Trials.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., March 5.—It is
believed in Washington that the
wheel of the congressional mill will
turn somewhat more rapidly from now
on, though whether any real progress
will be made in regard to the im-
portant measures comprising the Taft
program during the week it is difficult
to forecast with any degree of certainty.
The senatorial trust investigation
and the Ballinger-Clava inquiry will
continue to furnish material for the
capital correspondent.

President Taft has accepted an in-
vitation to speak at a celebration to
be held in the Metropolitan A. M. E.
church Tuesday night in the interest
of Wilberforce University, the oldest
institution devoted to the higher edu-
cation of the negro in the United
States. Other speakers at the meet-
ing will include Justice Harlan, of
the United States Supreme Court, and
Senator Hristov of Kansas.

Saturday is the day fixed for the
formal acceptance of the statue of
John C. Calhoun, which has been
erected as one of South Carolina's
contributions to Statuary Hall of the
national capitol.
Several events of interest to the
politicians are scheduled for the week.
At Albany the senate bribery investi-
gation will enter upon its fifth week,
with public interest increased by the
possibility of an early verdict. In the
Fourth congressional district of Vir-
ginia a special election will be held
to fill the vacancy caused by the death
of Representative Francis R. Landier.
Following a sensational campaign,
Seattle will hold an election Tuesday
for mayor and other municipal offi-
cials. In Detroit, Senator Burrows and
Congressman Townsend, who is oppos-
ing Burrows for the senatorship, to-
gether with several rival aspirants
for the nomination for governor of
Michigan, will be heard at a banquet
at the Wayne County Republican club.
An unusually large number of im-
portant court proceedings are sched-
uled for the week. J. C. Mayberry and

ed with having cleaned up over a mil-

INDIANA BANKERS TO
ANSWER TO COURTSPaul S. Grall Is First Slated And The
Markers Of The Bankers of
Tipton Come Next.

[SPECIAL TO THE GAZETTE.]
Indianapolis, Ind., March 5.—The
federal court to convene here Mon-
day will take up or trial the case
against Paul S. Grall, who is charged
with aiding and abetting May P.
Kammerer to abstract money from
the Capital National Bank of this city.
Kammerer, who was the bookkeeper
of the bank, has already been con-
victed and sentenced to five years in
prison.
As soon as the case of Grall is dis-
posed of the trial will begin of W. H.
Marker and Noah Marker, former
cashier and assistant cashier, respec-
tively, of the First National Bank of
Tipton. The Markers were charged
with having embezzled \$100,000 of the
funds of the bank, and with with-
drawing other crimes against the national
banking laws. As a result of the al-
leged embezzlement the Tipton bank
closed last July, but was subsequently
reopened. The bank has now brought
suit against the Marker brothers for
the \$100,000 which they are alleged
to have taken and concealed for the
purpose of defrauding their creditors.
Considerable comment has been
caused by the unusually large number
of Indiana bankers and bank employ-
ees who have recently run afoul of
the law. At the last term of the federal
court held in this city no fewer than
seven alleged violators of the national
banking laws were convicted and
sentenced to serve terms in the fed-
eral penitentiary at Leavenworth.
Among the convicted men were cash-
iers or other employees of national
banks in Indianapolis, Terre Haute,
El Wayne and Auburn.

WILL NOT TRY TO
VOTE OUT SALOONSTemperance Leaders in Superior Con-
sider It Unwise To Bring Up
Question For Vote This
Year.

[SPECIAL TO THE GAZETTE.]
Superior, Wis., March 5.—There is
to be no campaign on the nonlicense
question in Superior this year. In-
fact it has been settled at last for the
present that the question shall come
up in no form this year. After the
field day addresses by Anti-Saloon
league workers last Sunday confer-
ences of temperance forces have been
held but it has been decided unwise
to bring the matter up now. Instead,
efforts will be concentrated in getting
promises from the various candidates
as to their attitude on questions of a
temperance nature that will come up.
No prohibition candidates will be put
on the ticket.
New Jail Needed.
It begins to look as if this county
could no longer sidestep the jail
building proposition. Although mem-
bers of the state board of control have
at different times disapproved the con-
ditions found at the local battle re-
public and improvements of a tempo-
rary nature have always been made an
effort to satisfy the objections for the
time being. United States Marshal
Rock Flint, who is here attending fed-
eral court, has told Chairman Kossler
of the county board and Sheriff
Carlson, that if the local authorities
do not take hold of the proposition the
state board will be called on to do so
soon.
This jail matter contains possi-
bilities of serious strife between the
two ends of the city and for that reason
the politicians are usually chary of
mentioning it out loud. The court
house, jail and register of deeds' office
are at "Old Town" while all other
public offices are at the West End.
It is feared that anything like large
expenditure on a jail will revive the
demand for court house removal and
start a fight.
To Build Big Coal Shed.
The Northwestern Fuel company
has let the contract for building an-
other big hard coal shed on its prop-
erty here in the West-End section.
The company which has been doing a great
deal of the coal dock the last few
years. The new shed will add 75,000
cubic capacity. The company is plan-
ning on a six-foot addition to the
dock, putting it far ahead of anything
on the lake for size. Whether this
work will be done the coming season,
however, has not been definitely de-
cided.

ANOTHER DISASTER
OCCURRED IN WEST;
WORKMEN KILLEDReport from British Columbia Tells of
Avalanche That Buried
Train Crews.

[BY ASSOCIATED PRESS.]
Seattle, Wash., March 5.—A special
to the Post-Intelligencer from Revel-
stoke, B. C., says that between sixty
and a hundred lives were lost in a
catastrophe that buried two rotary
crews in the Rogers Pass, two miles
east of Glacier this morning.
A small slide occurred last evening
and men were clearing the line when
a second avalanche swept down the
mountain and engulfed both crews.
The details of the disaster are
hazy. A rescue party was sent out
from Revelstoke.

Deery Story.
Winnipeg, Man., March 5.—The re-
port a hundred persons were killed in
a snowslide near Revelstoke, B. C., is
greatly exaggerated, according to
railroad officials. It is possible twenty
are dead and even they may be
safe under the snow shed, the rail-
way men say.

MAN WAS CRUSHED
BY COUNTER WEIGHTTwenty-ton Mass of Iron Kills One
and Injures Another on Mil-
waukee Cantilever Bridge.

[SPECIAL TO THE GAZETTE.]
Milwaukee, Wis., March 5.—One
man met death and one was severely
injured while two others escaped
death by a narrow margin when a
twenty-ton counter-weight over a can-
tilever bridge at the Holton St. viaduct
today struck on a scaffolding upon
which four men were working. One
man was hurled to death 10 ft. below
into the river. The other man was
saved from death by the fortunate
circumstance of his leg becoming en-
tangled in the swinging hempen
tackle. He hung suspended head
downward in a badly bruised condi-
tion 60 feet above the river and was
rescued by his companions. The dead
man is Emil Zakorski, aged 63, mar-
ried, while the injured man is Louis
Dorstad with left leg broken at
the elbow and left arm badly bruised.
The other men jumped to a place of
safety.

BREAK RECORDS FOR
MANY CONVERSIONSRevivalist Talks To Students Of Uni-
versity and Has Two Hundred
and Fifty Professors Religion.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., March 5.—All re-
cords for conversions at revivals in this
city were broken last night when John
H. Mott, the noted religious worker
among the students all over the Uni-
ted States, spoke to a thousand at the
university here and 250 men students
came forward and professed Chris-
tianity and a desire to lead better lives.
Mr. Mott will be here several days
more and has developed a big follow-
ing.

Instead of expressing sympathy
with anarchism as has been charged,
Prof. John R. Commons of the Uni-
versity of Wisconsin, made bitter at-
tack on the whole cult when Emma
Goldman and Reiman were here.

This statement was made unquali-
fied today by a member of the profes-
sor's class in the labor problems. He
quotes Prof. Commons as saying:
"I am perfectly willing to allow al-
most any one of authority to speak in
my classes, but will never allow anar-
chists to do so."
He followed with a bitter attack on
anarchists and anarchists.
When shown this statement, Prof.
Commons again refused to say any-
thing one way or another, preferring
to ignore the whole matter.

WORK ON POSTAL BANK BILL

Thought Now That the Two-and-a-
Quarter-Per-Cent-Interest Section
Will Pass.

[BY ASSOCIATED PRESS.]
Washington, D. C., March 5.—The
Cummings amendment to the postal
savings bank bill was defeated in the
senate today. The Cummings
amendment was confined to the para-
graph giving power to the President
"in time of war" to order investment
of the postal bank funds in govern-
ment securities. The vote defeating
it was 18 ayes and 40 noes.

The Smoot amendment to the postal
savings bank bill was adopted by the
senate by a vote of 46 ayes and 24
noes.

The amendment fixing the minimum
rate of interest the funds may be
loaned for at 2 1/2 per cent was adopt-
ed. This precludes the possibility of
investing the funds in the govern-
ment's two per cent.

The Planchet examination was con-
cluded at noon. Nothing sensational
developed. Former Secretary Garfield
was called to the stand this after-
noon.

MRS. HARTJE WILL
GIVE NO QUARTERWoman Who Was Defendant in Sen-
sational Divorce Case Now Seeks
Separation and Division of
Fortune.

[SPECIAL TO THE GAZETTE.]
Pittsburg, Pa., March 5.—Some of
the biggest sensations ever recorded
in the Pittsburg divorce court will
come to light in the trial of the notori-
ous Hartje divorce case next week.
It rumors that have been floating
around Pittsburg the past few days
prove to have any foundation. Testi-
mony of a highly sensational charac-
ter, much of it said to be based upon
reports from private detectives, is ex-
pected to be presented in court in
support of the suit brought by Mrs.
Augusta Hartje for a legal separa-
tion from her husband, the millionaire
paper manufacturer. The case will be
called for trial Monday and it is ex-
pected the hearing will consume sev-
eral weeks.

The matrimonial troubles of the
Hartjes have come into print at more
or less frequent intervals during the
past five years. Of distinguished
family connections and possessed of
great wealth and social prominence,
Augustus Hartje and his wife leaped
into notoriety five years ago when
the husband brought suit against his
wife for absolute divorce and named
a negro as the co-respondent. The
legal battle dragged through the
courts for several years and attracted
the attention of the entire country.
On several occasions the evidence was
of such a character that the public
was excluded from the court room.
The divorce case was carried to the
higher courts and in its wake followed
several trials for perjury and subor-
nation of perjury.

In the end the husband was defeat-
ed in his effort to obtain a divorce,
the wife was vindicated in the public
mind of the sensational charges made
against her, and the negro felon, who
had sworn to an alleged intimacy with
Mrs. Hartje, was sent to prison for
perjury. Eminent counsel had been
employed by both sides and it was
estimated that the costs in the case
had amounted to nearly a quarter of
a million dollars. It was reported at
the time, though the report has never
been verified, that Andrew Carnegie,
the multi-millionaire steel manufac-
turer, had furnished the money to de-
fend Mrs. Hartje out of friendship for
her father.

Mrs. Hartje now declares that noth-
ing less than a legal separation and a
fair share of her husband's fortune will
satisfy her. It has been frequently
rumored of late that Hartje was at-
tempting a settlement in order to ter-
minate the sensational marital troubles
of the pair being further "paid bars."
But Mrs. Hartje emphatically de-
clares that she will not be a party to any
such settlement. Another trial of the
case in court, she believes, will re-
sult in a complete vindication of her
character.

OLD RESIDENT OF TOBACCO
CITY DIED YESTERDAYJorgan Johnson, for Many Years
Resident of Edgerton, Has
Passed Away.

[SPECIAL TO THE GAZETTE.]
Edgerton, Wis., March 5.—Jorgan
Johnson, a native of Christiana, Nor-
way, and for many years a resident
of Edgerton, died yesterday afternoon.
He was about 60 years of age and
lived alone, occupying a room on
the third floor of the old American
House building. He was an old mili-
tary. All of his relatives reside in
Norway.

U. G. Miller, chairman of the town
of Milton, has purchased a flyop-
senger Mitchell touring car.
Rev. J. L. Johnson, pastor of the
Norwegian Lutheran church, has re-
ceived a call from the local church to
occupy the pulpit Sunday at the close
of the morning service.

order may be sent out tonight. There
are no saloons open on Sunday so
that the trouble, if any from drinking,
will come this evening if at any time.

Men Have Money.
Yesterday was pay day in the ma-
jority of the large plants affected and
the strikers all are supplied with suf-
ficient funds which makes the prob-
lem a more serious one than if the men
were without money. Several con-
flicts between police and mobs have
occurred.

Men Determined.
At the meeting of the unions held
throughout the city the union mem-
bers made strong promises against
riding on the street cars and held a
line of five dollars on all violations.
They appear very determined to fight
the matter out to the end.

Hire Autos.
Night workers in the post office and
newspaper offices were sent to their
homes in automobiles this morning
instead of street cars which have been
run under heavy guard for their bene-
fit for some days past but which were
taken off last night.

Running Cars.
The street car company is running
cars under strong police guard and
the officers have strict instructions
to use both night sticks and revolv-
ers on all mobs which will not obey
the order to disperse. There is a
liability of a famine in milk and eggs
in the city.

Making Plans.
The city officials are making plans
for the quarantining and care of the
state troops should they be ordered
out for strike duty and for feeding
them at different parts of the city.
There are six state armories that can
be utilized as well as several large
halls which will be taken for this
purpose.

the United States district court at
Cincinnati. The trial of P. Augustus
Holmes in New York on charges
of misapplying funds of the Merchants
National Bank and the hearing
of the Hartje divorce case in Pitts-
burg are expected to furnish some
"live" reading.

After numerous delays Nicholas
Tschalkovsky and Catherine Fresh-
kovskaya, who are charged with being
leaders in the Russian revolutionary
movement, are to be placed on trial in
St. Petersburg.

The Interstate Commerce Commis-
sion will take testimony in Minneapolis
Tuesday in several cases that are of
prime importance as affecting ship-
ping interests. Alleged freight over-
charges are the points involved in the
cases and the defendants include a
number of the leading railroads in the
West and Northwest.

A conference of miners to consider
steps to settle the differences between
miners and operators in the coal
fields of Ohio, Indiana and western
Pennsylvania will assemble Tuesday
in Cincinnati. The main point in dis-
pute is a demand by these miners for
an increase in wages of ten cents a
ton. New wage schedules are to go
into effect the first of April.

BLIND ATHLETES' MARKS RECEIVED

LOCAL SCHOOL FAILS TO LAND IN FIRST DIVISION.

NEW MEXICO IS CHAMPION

Wisconsin School for the Blind One of Eleven Entered in Championship Indoor Contests.

Records made by blind athletes in the first annual indoor meet held Feb. 22 under the rules of the National Athletic Association of Schools for the Blind, in which eleven schools participated, have been received by Dr. J. P. Brown, Superintendent of the Wisconsin School for the Blind of this city. The scores show that the Janesville school failed to land in the first division although some of the marks set compare favorably with those of the winners.

The team of the New Mexico School for the Blind was awarded the championship, securing 17 points. New York came second with 15 1/2 points while Massachusetts was third with 11 points. Other schools participating were: Wisconsin, Eastern Pennsylvania, Illinois, Montana, Ohio, S. Carolina, Western Pennsylvania, and Missouri. Indoor meets, made up of the following events, were held simultaneously in all of the eleven schools on Feb. 22, and the records made at those meets were sent to the offices of the National Association at Overbrook, Pa., where they were compared and the winner selected.

The marks set by the three leading teams, together with those made at the Wisconsin school, are as follows:

WILL TAKE COLLECTION FOR THE MERCY HOSPITAL

Churches in City Will Take Collection Next Sunday To Help Hospital.

On Sunday, March 13, a collection will be taken in the churches of the city for the benefit of Mercy Hospital. The Sisters of Mercy, in charge of the hospital find that there are many things necessary to be purchased, but they lack the funds with which to buy them, and they have requested the pastors of the city to announce that a collection will be taken for this purpose. The cause is a worthy one and the fund subscribed will undoubtedly be a large one.

CRACK SKATERS OF OLD WORLD AT HOLSINGFORS

(SPECIAL TO THE GAZETTE.)

Holsingfors, March 5.—Many of the fastest skaters of England, Germany, Austria, Switzerland, Sweden, Denmark and other European countries today took part in the opening races for the world's speed skating championships of the International Skating Union. Considerable interest is expressed that neither the United States nor Canada is represented in the competitions this year.

OBITUARY.

Mrs. Elizabeth A. Abbey, a former resident of this city, died yesterday at the home of her sons, 2822 Walnut street in Chicago, of pneumonia. She was eighty-two years of age and for many years made her home here, but since 1900 has been a resident of Chicago. Mrs. Abbey was a member of the First Congregational church of this city, joining by letter in the early twenties. She was an earnest and faithful Christian worker. The remains will be buried in the cemetery at Roscoe, Ill. Monday afternoon.

Frank H. Ruger, who died in Superior, was held this afternoon at three o'clock from the home of his parents, Mr. and Mrs. Edward Ruger, 1002 Mineral Point avenue. The services were conducted by the Rev. John McKinney in the presence of a large family circle and many friends. The pallbearers were: Harry Rogers, Mr. Ruger's business partner, and Samuel Lightbody of Superior, Allen Lovejoy, M. J. Richardson, H. H. Bliss and Joseph Schell. Interment was in Oak Hill cemetery.

Mrs. John Lyke
The funeral of Mrs. John Lyke will be held tomorrow afternoon at three o'clock from the home, 526 South Main street.

Mrs. Patrick Ryan
Funeral services for Mrs. Patrick Ryan will be conducted from St. Patrick's church at nine o'clock Monday morning. The remains will be taken to Albany for interment.

Mrs. Hannah R. Vedder.
Mrs. Hannah R. Vedder, one of the leading club women of Milwaukee, died at her home in the Green City last night. Mrs. Vedder was well known to a number in this city as a member of the I. O. O. F. and was connected with other societies. She was born in Utica, N. Y., seventy years ago and settled in Milwaukee in 1851. Mrs. Vedder had been ill but a short time, suffering an attack of paralysis about three weeks ago.

Aluminum Paper.
Aluminum paper, a cheaper substitute for tin foil, is made by pressing the powdered metal into a thin coating of resin on parchment-like paper.

Base Metals in Coins.
The wear and tear of coins is delayed by the admixture of base metals with the precious ones. In their pure state gold and silver would be too soft to stand the usage for which coins are intended. Manufacturers of brass and gunmetal are able to affect very surprising results in alloys. They will produce bright and useful substances with the most unpromising materials gathered from the old metal merchants.

BRUSHES
Our Brush department is very complete as we have a great variety of kinds. Note the following:

BELOIT DEFEATED THE EVANSVILLE TEAM

(SPECIAL TO THE GAZETTE.)

Beloit, Wis., March 5.—The Beloit High School basketball team defeated the Evansville team by a score of 29 to 23, last night. The high school ball was wrung in honor of the victory for the first time in many months as the clapper had been stolen and was only returned to hammer out the note of victory.

The Freeport, Ill., Y. M. C. A. team came to Beloit last night and defeated the Beloit Y team by a score of 49 to 33.

The city street department is doing good work cleaning the streets and in a few days the city will be quite presentable if the thawing continues to make cleaning possible.

The brick for the street work already planned for the year will amount to cost to \$30,000 and there will be 1,500,000 brick or 200 freight car loads and 5000 wagon loads. Laid end for end the brick would extend from Beloit to Milwaukee, a distance of 237 miles.

"The Gentleman from Mississippi" played to a capacity house last night. The sale of seats ceased before six o'clock.

The earthquake shock that attracted attention in the east a few days ago was felt in a chemical laboratory in this city by Arthur Burr who was in the act of weighing on delicate scales. He made a notation of the incident and waited reports to confirm his belief that there had been an earthquake.

How to Invest \$50.00 a Year

What can a man do who has \$50 a year to invest? It isn't much, it is true, but there should be some avenue for it. There are but few desirable mediums for investing that small sum and because of it, most people spend their small savings. This is unfortunate.

It can be put in a savings bank and earn 3%, but there is always the temptation to remove it and invest in a losing venture. It is only safe so long as it is in the bank.

One of the safe plans is to purchase an endowment policy where some investment is desired, at once creating an estate of a most substantial character.

Following are benefits to be derived from one of our Twenty-Year Endowment Policies issued at age 25 years:

GUARANTEE—Our policies are guaranteed—they contain no estimates.

BENEFICIARY—If you should die before 20 years had elapsed your beneficiary would receive \$1,000. Our policies make it allowable to change beneficiaries.

INCONTESSTABILITY—Our policies are incontestable from their date except for non-payment of premiums.

LOANS—After three years' payments have been made money will be loaned to you according to the amount paid in. For instance, at the end of 5 years you wanted to borrow, you could get \$104.75, six years \$205.52, and so on in proportion to the number of years elapsed from the date of the policy until the loan is made.

PAID-UP INSURANCE—If you should stop payment at the end of five years, you would have insurance paid up to the amount of \$265, six years \$322, and so on upwards.

EXTENDED INSURANCE—Our policies can be extended on the amount of payments made, at any time you might wish. For instance, if at the end of 5 years you stopped paying you would still receive the benefit of \$1,000 insurance for 15 years and receive at the end of twenty years \$121 cash, if you stopped at the end of six years you would receive the benefit of \$1,000 insurance for 14 years and receive \$201 at the end of twenty years from first date.

REINSTATEMENT—In case of continued temporary insurance upon satisfactory evidence of insurability the policy will be reinstated on the old basis.

DISABILITY CLAUSE—If you should become disabled and thereby prevented from taking up the premiums the company will also them up for you. Loan and cash value will continue the same as if you were paying the premiums.

PREMIUMS—The premium on the above policy is \$13.05 per annum, or it can be arranged semi-annually at \$22.59 or quarterly at \$11.11.

For Those You Love

A man's value to his family is measured by his earning capacity and he should carry enough Life Insurance to make good to

them the financial loss his death would entail, based upon his present earnings.

Surely "No man liveth to himself," and he who fails to provide for his own, not only during life but after life, is worse than an infidel.

No man whose life is well insured will ever be written down an infidel no matter what his other characteristics may be.

Wisconsin National Life Insurance Company

Every life insurance company had a beginning and the fact is well established that new companies fall heir to priceless experience in every phase of the business of all companies which have preceded them, and which cost the old companies that were started 40, 50, 60 years ago, millions of dollars in errors and the establishment of scientific mortality and reserve tables, all of which redounds to the advantage of the Wisconsin National Life Insurance Company starting in this day and age on the Legal Reserve plan and in compliance with well defined insurance regulation.

Everything in our policies is absolutely guaranteed and they conform to the high standards set by the State of Wisconsin and the business is under the supervision of the Department of Insurance.

While business and huge growth appeal strongly to the imagination, and, therefore, passers advertising values, they in themselves, are not the elements by which the solidity and character of a company should be tested.

The best company is not necessarily the one that has the largest amount of business in force, but it is the company that lives to the square deal line from the first end of the year to the last end, and preserves the equities of its patrons at all times and in all things.

Let me send you a sample policy. Don't procrastinate. Remember there may be danger in delay.

A letter, postal card, phone or personal call at my office will get us together any time on Saturday or Monday. My time is your time.

The story of this monument have been carefully selected, and they throw a flood of light upon the providential preservation and growth of the word of God.

About Your Eyes and Eye Glasses

Notice the Difference of the Invisible bifocal lens

Hundreds of people are suffering from different troubles and never dream their EYES are the cause. EYE-STRAIN causes more nervous troubles than any other known cause. We know the dangers that follow in the wake of defective eyes and strained vision. My knowledge of the EYE and practical experience in the FITTING OF GLASSES is at your service. I examine your eyes with the Ophthalmoscope and in so doing can discover any diseased condition of the eye and defects in vision and give advice accordingly. GLADNESS COMES

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of illness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs and Elixir of Senna, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the only remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is, therefore, all-important in order to get its beneficial effects, to purchase and note that you have the genuine article, which is manufactured by the California Fig Syrup Co. only.

It is pleasant and refreshing to the taste, and acts gently yet promptly on the kidneys, liver and bowels, cleanses the system effectually, dispels colds, headaches and fevers and assists in overcoming habitual constipation permanently, also biliousness and the many ills resulting therefrom. The great trouble with all other purgatives and aperients is not that they fail to act when a single dose is taken, but that they act too violently and invariably tend to produce a habit of body requiring constantly augmented doses. Children enjoy the pleasant taste and gentle action of Syrup of Figs and Elixir of Senna, the ladies find it delightful and beneficial whenever a laxative remedy is needed, and business men pronounce it invaluable, as it may be taken without interfering with business and does not grip nor nauseate. When buying note the name, California Fig Syrup Co., printed on the front of every package. Price, 50 cents a bottle.

Some Folks Cannot Get Life Insurance--Possibly You Cannot

ONE thing is certain, life insurance is a privilege, and the man that is insurable, yet who is not insured, is neglecting a duty he owes to his family. A famous Englishman, Lord Nelson, in his will left his wife and daughter "to the tender care of the British Nation, to which I have given my life," and the wife and daughter gravitated to the poor house. Don't leave your loved one to the care of neighbors. They have troubles of their own. Cut out risk, accident and worry and buy life insurance. It's really only a matter of saving a fixed sum each year if you will take a 20-year endowment policy in The Aetna Life Insurance Co., because at the end of the contract you will get back more money than you have paid in, besides sharing in the earnings of the company and besides being insured all the time.

If the policy is in force one year, it is incontestable EXCEPT FOR NON-PAYMENT OF PREMIUMS.

You will share in the earnings of the company, which earnings may be applied on the premiums, or they can be made to hasten the maturity of the contract.

You can borrow money of this policy as per Table "A." At end of second year \$50.00, third year \$94, etc. You can apply the loan as payment of premium. If two or more years full premiums have been paid and there is no indebtedness on account of loans, the policy will be extended as temporary insurance for the full sum insured, including dividend additions, for the length of time shown in the table "A" under the column "Extended Insurance," and at the end of the 20 years the company will also pay in cash the amount in table "A" under the column "Pure Endowment." As an example: Suppose you pay four years and then stopped; you would receive \$1000 insurance and \$12 in cash at the end of that 16 years of \$1000 insurance and \$12 cash, etc.

If the policy should lapse for non-payment of premiums, it can be reinstated at any time within five years by paying the amount due with interest, if satisfactory evidence of insurability is furnished to the company.

Suppose you become totally disabled from sickness or accident, or become blind, or if you lose both hands or both feet or one hand and one foot, then your premiums on this policy stop and the company pays you one-twentieth of the policy each year until the full sum of the policy has been paid.

30 H. P. Car in
Janesville

We have Always had full Confidence in the Buick

We are presenting our 1910 models for your consideration with still greater confidence, as our maturer judgment convinces us that no car built today fills so completely the different requirements of the average motorist as the 1910 Buick models. These cars are a product which has been thoroughly tested in every respect and one whose mechanical points are so constructed as to give the highest efficiency in power and durability, while the general outlines of the chassis, body, etc., are an exemplification of beauty in every respect. The name Buick is synonymous with high quality and low price.

"He who wears the spurs must win them"

We have sometimes heard things said about the Buick and to disprove these sayings we hereby challenge any 30 H. P. car in Janesville, of any make, to any kind of a contest which may be suggested: race—speed or endurance, hill climbing or sealed bonnet contest.

This Challenge Open for 10 Days
From March 5th, 1910

Anyone wishing to accept, for his car, can see us at the garage and arrange details. Forfeits must be posted before contest.

Results of contests will be published in this paper after the date of expiration of the challenge.

"Two holes in my office the other day were talking and comparing notes."

One said, "I shook like a leaf when I sat down in the dental chair, but after Dr. Richards had extracted one tooth and I found that it really did not hurt, I said go ahead and take the others out. I could have sat there till tomorrow."

"That's so," said the second lady. "I felt the same way, but to my surprise the pain was simply nothing."

These expressions are full of suggestion, in view of the fact that these same people tell me that their former dental experiences are simply a nightmare when they think of them.

I feel that I am well within the truth when I tell you that my present method simply annihilates the pain of extracting teeth.

IT'S NOW ALL UP TO MONITOR CO.

ARTICLES OF AGREEMENT DRAWN UP TODAY.

APPROVED BY J. E. NORLING

His Associates Sign Tonight Removal of Auto Factory to Janesville Will Commence at Once.

Negotiations relating to the terms on which Janesville investors will become interested in the extent of \$17,500 in the Monitor Automobile Works of Chicago and the removal of that concern to this city, reached, it is believed, a happy culmination this morning when typewritten articles of agreement were submitted to and approved by J. E. Norling, one of the principal stockholders. The committee consisting of Michael Hayes, Thomas O. Howe, George Weber, Sanford Sewall, and Judge Charles L. Philo, has held out for a number of concessions, small and large, to which the heads of the company have not readily acceded and the company, too, has made stipulations which had to be modified, and it has been necessary for both sides to either yield or compromise on several points. If the associates of Mr. Norling are of the same disposition as he appeared to be at the conference in Judge Philo's office this morning, the articles will be signed in Chicago sometime today or this evening and the removal of the factory to this city will commence at once.

Janesville will be more heavily interested in the institution than was originally contemplated. Besides the \$17,500 subscribed for stock—one share of preferred and one share of common to be issued for every \$100—the Green Tobacco Co. warehouse will be turned in for an issue of \$32,000 stock. The efforts of the Monitor, Green to do all within their power to secure the location here and their faith in the enterprise will be appreciated when it is known that the actual estimated value of the structure at the present moment is \$37,500.

The Monitor Co. will not employ a large force of men at the outset but will begin operations on a modest, rational basis and enlarge its scope as the business warrants.

COURT DISMISSED ACTION AGAINST THE GRIFFIN'S

On Motion of District Attorney Fisher This Morning—Tom Varg Was the Complainant.

In municipal court this morning the action brought on complaint of Tom Varg, the Greek confectioner who was yesterday fined \$25 for selling obscene postals, to have Mr. and Mrs. Michael Griffin put under bonds to keep the peace, was dismissed on motion of District Attorney J. L. Fisher. In the light of recent developments it seemed evident that if the Griffins figured in any serious disturbances at Varg's store, which is denied, they were justified by the sale of one of the pictures in question to one of the Griffin girls.

Gave Exhibition Here: Fessenden, the Evansville billiard player, was a Janesville visitor yesterday and played several exhibition games, making several runs of fifty and over. Mr. Fessenden won the Kansas City championship last winter at the tournament held at the Kline rooms in that city, and was a contender for the state championship at the recent tournament in Green Day.

WHERE IS WALTER GRISBY'S FATHER?

Feeble-minded Youth Taken into Custody at Lincoln, Neb. Says He Is at Work Near Janesville.

Miss Louise Crosby, secretary of the Associated Charities, has turned over to the police department a communication from C. E. Provey, general secretary of the Charity Organization society of Lincoln, Neb., regarding one Walter Grisby, age 19, a feeble-minded youth who has been taken into custody by the police of that city. A search is being conducted for relatives and friends and the boy says that his father, Loren Grisby, is working for someone on a farm in or near Janesville. Thus far he has not been located.

MRS. CYRUS MINER DIED IN THE WEST

Word Received Here of Death of Former Resident in Southern California.

Janesville friends have received word of the death in Southern California of Mrs. Cyrus Miner, a former resident of this city. The shock of the death of her daughter in San Francisco is thought to have brought on Mrs. Miner's demise. Mrs. Miner was well known and was beloved by many in this city. Until about two years ago she made her home here, then going to California to make her home with her daughter. Her husband, the late Cyrus Miner, was for many years a resident of Janesville, being proprietor of a shoe store, where the Sheldon hardware store is now located. Mrs. Miner is survived by two sons, Potter and Fred Miner.

\$100 STEER STOLEN FROM GEO. RICHARDS

Capital Offense Committed Sometime During Week—1,400 Pound Cattle Missing Yesterday.

When George Richards, whose farm is located just south of the sugar factory, took count of his herd yesterday he discovered that one of the steers, a cattle weighing 1,400 pounds and worth \$100, was missing. The attention of the authorities has been called to the matter and no effort will be spared to locate the offender and bring him to justice.

SAND COMPANY WILL ENLARGE

CEMENT SHINGLE COMPANY BUYS FIFTEEN MORE ACRES.

MEANS INCREASED OUTPUT

Name Changed and Capital Stock Increased to Twenty-five Thousand Dollars.

Prospects for a marked increase in the amount of sand and gravel to be loaded during the coming summer over the great amount shipped out last year are so bright that the Janesville Sand & Gravel Company, formerly the Janesville Cement Shingle Company, have increased their capital stock and purchased fifteen additional acres of land which will be developed immediately.

An amendment to the articles of incorporation has been filed at the register of deeds office, increasing the capital stock from ten thousand to twenty-five thousand and changing the name of the company. In addition, the company has completed negotiations for the purchase of fifteen acres of land which will be opened as soon as possible and operated in conjunction with the company's present pit at the south end of McKee Boulevard.

The land is situated in the south-eastern part of town near the Sugar company's plant and consists of fifteen acres, purchased from S. M. Jacobs. Mr. Jacobs, who came to this city from Stevens Point, bought eighty acres in September, 1908. The purchase price was \$1800, which is double the original price per acre but which includes a five years' lease on a highway through a part of Mr. Jacobs' farm.

The new pit is situated close to the main line of the St. Paul road and arrangements are now being made to install a side-track. This will give the company an outlet on both roads, as the North-Western connects with the St. Paul.

It is hoped that the company can complete the preliminary work by May 1, and start shipping on that date. Machinery, such as is in operation at the old plant, is being constructed and as soon as winter breaks for good the land will be cleared and the blue and screens installed.

Although the company proposes to devote most of their facilities to handling sand and gravel, other products such as cement shingles, concrete blocks, indestructible burial vaults and other concrete products will not be neglected. Their principal product, however, will be sand and gravel, a market for which is found in Chicago and other cities throughout the state. As high as fourteen cars a day were shipped last summer and it is hoped to increase this number to forty when the new pit is opened.

Except for a few of the coldest days sand and gravel have been shipped throughout the winter, although most sand pits have been closed.

Company Leaves City

Enlisting offers from Oklahoma City, Oklahoma, have been accepted by the officers of the Janesville Granite, Brick and Stone Company and within the next six weeks the entire equipment of the local plant will be shipped south, having been purchased by the new concern, the Oklahoma Granite, Brick and Stone Company, in which many of the officers of the original company remain.

Oklahoma offers almost unlimited opportunities for an industry of this kind, according to the statements of R. L. Corley, who has inspected the field. Over 1,000,000 brick have already been contracted for and the company, in order to meet the demand, will immediately commence the construction of a steel and brick building, 71 by 200 feet, and will employ about forty men. Ten acres of land have been offered as an inducement and Oklahoma capitalists have taken up \$10,000 of the \$50,000 capital stock of the company. The local concern was capitalized at \$25,000.

The officers of the company which has been incorporated under the laws of the state of Oklahoma are as follows: Wm. Zull of Janesville, Pres.; W. O. Mitchell of Oklahoma City, Vice-Pres.; A. Dunn of Oklahoma City, Sec.; and R. J. Corley of Janesville, Sec. and general manager. J. L. Bostwick of this city still retains his office as director.

Greater opportunities and the realization that the Janesville field is limited are the reasons that led to the removal of the plant, according to the officers' statements. Realizing that the company was a local enterprise, the officers held on as long as possible, but were finally constrained to take advantage of the inducements offered.

SUDDEN DEATH OF HON. KIRON W. BEMIS

Rock County Pioneer Breathed Last at Hotel Empire Last Evening—Nearly 80 Years Old.

Hon. Kiron W. Bemis, a pioneer resident of Janesville who represented Rock county in the state legislature of 1858 and held many other important offices during his long and useful life, died suddenly at the Empire hotel at half past eleven o'clock last evening after an illness of about one week's duration. He and his wife had lately been making their home with son, O. W. Bemis, at Clinton, Ia., but since last autumn had been visiting with friends and relatives in this state and Illinois and were here awaiting favorable weather before undertaking the trip to this son's new place of residence at Salt Lake City.

The deceased was born in Madison county, New York, June 11, 1831, and came from Alabama, Genesee county, New York, to settle in the town of Plymouth, Rock county, in 1844. He was married April 19, 1846, to Rachel Wheeler, who survives him. Edgar M. Bemis of Tavares, Wash., is one of the two children. A sister, Mrs. Charlotte A. Boyer, lives at Leola, Wis.; a brother, Jerome Bemis, at Los Angeles, Cal.; and a nephew, Fred H. Bemis of Postville, with Mrs. Bemis at the last.

Mr. Bemis was many times chairman of the town board during his early history. He also served the county as register of deeds and was for a time in the private marshal's office. The funeral is to be private and notice will be given later.

"Sunkist" Orange Special

An Entire Trainload of Oranges Coming on Special Express Schedule for

Special "Sunkist" Orange Sale

Week Beginning March 7 1910

Your dealer—every dealer—will be supplied with fresh picked "Sunkist" oranges. Here is fruit that is fresh as that eaten by your California friends, for it comes to you as fast as this special express freight train can bring it. It has the right of way wherever possible. The California Fruit Growers' Exchange can allow "Sunkist" oranges to fully mature on the tree because they get them to you so quickly after picking.

Picked By Gloved Hands

Picked by experts wearing gloves to keep the deep tinted skin intact—thus insuring perfect oranges. "Sunkist" oranges are tree-ripened—observe the deep tinted skin—that's Nature's guarantee for the matured lusciousness within. There are no other oranges like these. Place them on your table at every meal. Your family will appreciate "Sunkist" oranges as they do no other food.

Physicians recommend oranges for their food value to brain and nerve cells.

Be Sure You Get "Sunkist" Oranges

In order that you get the choicest of the 5,000 groves in which "Sunkist" oranges are grown, be sure the oranges you buy are wrapped in tissue paper upon which is printed the "Sunkist" label. Oranges without this wrapper are not "Sunkist" oranges. Insist upon getting "Sunkist" oranges only—then you are insured of the finest fruit it is possible to grow.

"Sunkist" Lemons

are rich in strong lemon juices. They are thin-skinned, firm, tree-ripened and hand-picked. They answer every purpose better than any other lemon in the world. That's because they are carefully cultivated by most expert hands.

OLEO SECRETS BEING BARED

HIGH OFFICIALS HAVE BEEN
PROBING SCANDAL FOR THE
LAST SIX MONTHS.

HAD EYES ON MOXLEY FIRM

Treasury and Agricultural Depart-
ments Were Cognizant of Facts,
Had Decided Use of Wrappers Was
Violation of Law.

Chicago, Mar. 5.—Further probing
into the oleomargarine frauds has un-
earthed the fact that the relations of
William J. Moxley, Inc., butterine
manufacturers, with customers who
are now under indictment as oleo
"moonshiners," have been in the
hands of high government officials for
some time.

Known Six Months Ago.
It was six months ago that the Chi-
cago revenue officials, as the result
of spectacular raids on the butterine
"moonshiners," uncovered the secrets
of the business revealed by defend-
ants in Judge Landis' court.

Assertions by the dealers that Mox-
ley furnished the wrappers for one-
pound prints of butterine, labeled
with the stamp guaranteeing inspec-
tion and passing by the government,
coincide with the information that the
revenue officers collected.

Circumstances Told in Letter.
It was revealed that a Chicago re-
venue official wrote of these circum-
stances in a letter to R. E. Cabell,
commissioner of Internal revenue at
Washington, and that in this letter
this question was asked of the de-
partment:

"Do not these things suggest col-
lusion with the colorers?"
The letter containing this question
is on file somewhere in Washington.
Commissioner Cabell submitted it to
his chief, Franklin MacVeagh, sec-
retary of the treasury. Mr. MacVeagh
passed on the question of the use of
the wrappers, deciding that if there
was a violation there it was one of the
pure-food laws, with reference to the
inspection of food products. This is
in the province of the department of
agriculture and he sent the letter to
James Wilson, secretary of agricul-
ture.

Further Progress Not Known.
Whether or not Secretary Wilson
referred it to the Chicago office of
the bureau of animal industry could
not be learned here.

MRS. ASTOR GETS HER DECREE. Plaintiff Can Remarry But Not the Colonel—Children Divided.

New York, Mar. 5.—Mrs. Ava Wil-
ling Astor received her final decree of
divorce from Col. John Jacob Astor.
It was signed by Justice Isaac N.
Milla in the supreme court at White
Plains.

The decree makes little known that
had not been forejudged in popular es-
timate. There appears the bald state-
ment that the marriage is dissolved by
reason of the statutory offense on the

part of the defendant, but no money
settlement is mentioned, and the name
of the woman is not given, and none of
the testimony taken by the referee is
available—nothing but the decree
itself.

The plaintiff may remarry, but not
the defendant. Custody of William
Vincent Astor, the son, is given to
the father, with provision that the
mother may see him when she wishes,
and custody of the daughter, Ava
Alice Astor, is awarded the mother,
with provision that the father may
see her at all reasonable times.

Empress of Britain Reports One Pas-
senger Dead, Many Hurt.

Hullfax, Mar. 5.—After battling with
giant seas and great gales, the Can-
adian Pacific railway's steamer Em-
press of Britain arrived here 30 hours
overdue from Liverpool and reported
one steerage passenger killed and five
others injured during the passage.

Last Tuesday morning a big combor
rolled on board and tons of water
poured down into the "well," sending
six steerage passengers crashing
against the sides of the cabin and the
stairs.

RECOVER 40' FROM SNOWSLIDE.

Digging for Bodies in Canyon Tomb
Makes Slow Progress.

Wellington, Wash., Mar. 5.—Those
digging for bodies in the snowy tomb
of the avalanche made little progress.
Only 40 feet had been brought out,
leaving 45 passengers and railroad
men and an unknown number of in-
habitants in the gorge where two Great
Northern trains were buried Tuesday.

The Great Northern railroad sent
in 15 Alaskan sledges on which the
bodies will be taken to Blyhomish.
Superintendent O'Neil's private car,
containing the bodies of Trainmaster
A. R. Blackburn and Secretary Long-
coy, was found.

Of 700 sacks of mail carried away
by the avalanche only 150 have been
recovered. There is no trace what-
ever of one mail car and seven clerks
and welshers. In some places cars
are known to be under 70 feet of
trees, snow, earth and rocks.

The Great Northern is using all the
resources at its command to open the
truck. Superintendent O'Neil esti-
mates the actual loss to the road by
destruction of property at \$1,000,000.

baby sister by means of crawling on
the floor underneath the volumes of
fire sent up from the gas stove and
shelved paints, 12-year-old Fannie
Goldman was the heroine of a fire at
126 Cannon street, in which her fa-
ther, mother and three children were
injured.

NUMBER KILLED IN MINE IS 33.

Two Die in Hospital and Eight More
Bodies Are Found.

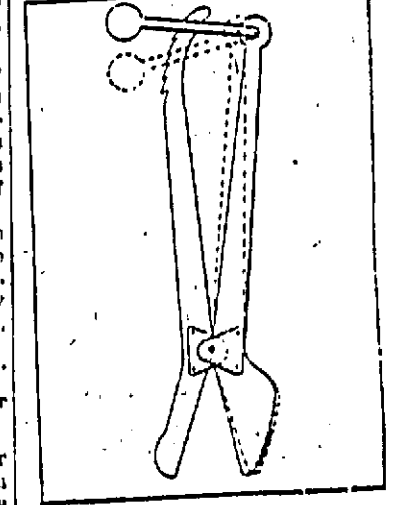

Juneau, Alaska, Mar. 5.—Thirty-
three miners are dead as a result of
Wednesday night's powder magazine
explosion in the Mexican shaft of the
Treadwell gold mines. Twenty-three
bodies were taken out soon after the
explosion, eight others were found
later and two died in a hospital.

SHOE-STRETCHER

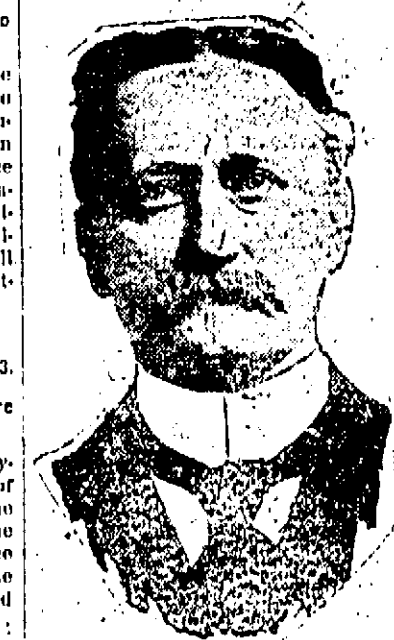

Locks Automatically as It is Pushed
Into the Shoe.

A shoe-stretching device that is as
simple as it is effective has been inven-
ted by an Illinois man. It locks auto-
matically as it is pushed down into the
shoe and the user need not fear of too great
strain on his foot. Two levers are
pivoted together near their lower ends,
which are shaped to fit in the heel and
under the instep of a shoe. One of the
upper ends has a tooth rack along it
while the other has a fluk with a V-
shaped edge to engage the teeth in the
rack and draw the upper ends of the
levers together, thus forcing the lower

extremities out and stretching the shoe.
The tooth rack is curved so that as
the fluk is pressed down it locks auto-
matically in each tooth it passes over.
This stretcher is handy for use in home
or store, either to stretch shoes that are
too tight or to answer the purpose of a
tree by inserting it in a wet shoe in or-
der that the foot may not become tighter
as drying.

DAVID R. FRANCIS.
Enters Race for Senatorial Toga.
St. Louis, Mo.—David R. Francis,
known as Missouri's "leading Demo-

crat," after having served his state in
many capacities, now seeks a chair in
the senate.
James A. Reed of Kansas City and
Sterling P. Bond, a St. Louis attorney,
are two announced opponents of Mr.
Francis for the Democratic senatorial
nomination.

Senator Warner may not seek to
succeed himself by entering the cam-
paign for the Republican nomination.
Walter S. Dickey, Republican state
chairman, has been mentioned as a
probable opponent of Senator Warner,
as has Governor Hadley.

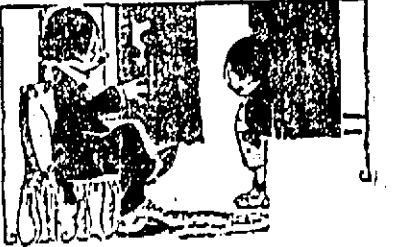

There is not a man in the state so
widely known. He has been mayor of
St. Louis, governor of Missouri and
secretary of the Interior in the cabi-
net of President Cleveland. As presi-

dent of the St. Louis World's fair,
commemorative of the Louisiana pur-
chase, he gained a world-wide promi-
nence and a reputation for rare execu-
tive and administrative ability.
Mr. Francis is 53 years old. He was
born near Richmond, Ky., coming to
St. Louis as a young man to enter
Washington university, from which he
was graduated in 1870. In 1877 he es-
tablished a grain commission business
of which he is now the head.

M'KINLEY'S COUSIN IS HELD. Dangerously Wounds Woman Whom He Separated from Husband.

Pittsburg, Pa., Mar. 5.—Mrs. Alexander Wright, formerly a member of the Sewickley society set, was shot and dangerously wounded by Edward C. Miller, a cousin of the late President McKinley during a quarrel in the lobby of the Imperial hotel. Miller, who is known among billiardists as "King" Miller, is held without bail. Miller was the cause of the separation of Mrs. Wright and her husband, and since that time she and Miller have been together. The cause of the shooting was Miller's alleged discovery of a flirtation between Mrs. Wright and one of the hotel employees.

HEINZE SAYS HE'S NOT GUILTY. Finds Difficulty in Getting Judge to Accept Plea.

New York, Mar. 5.—17. Augustus Heinze's plea of not guilty to the federal grand jury indictment charging misappropriation of funds of the Mercantile National bank, of which he was president, was hawked about the federal building, but not a judge could be found who would definitely accept it. The tentative plea, with leave to withdraw, was finally allowed to stand, however, with the understanding that the whole matter should come up before United States Judge Holt Monday.

4-PASSENGER BODY
THE CAR THAT SELLS ITSELF

"The Wisco is the Very Car
You have been Waiting for"

The WISCO is so superior in beauty of design and mechanical perfection that it really sells itself. The WISCO is high class in every particular, powerful, silent, comfortable, durable and so easily controlled that anyone can drive it.

If you will compare the WISCO side by side with the car that now appeals to you, we are content.

Compare the two line for line, feature for feature, point by point. Then, by demonstration, compare power, speed, flexibility and control—note the comparative riding qualities of each.

Simply do this—and you will have sold yourself a WISCO. The car is its own best salesman—it really sells itself.

SEE FOR YOURSELF

Demonstrating cars all look well on the outside, but what we want you to do is to come here to our factory where you can see each and every part before it is put into the car, while it is being put into the car and after it is in and finished up—a perfect car.

Come and ask questions so that you will know what each part is for and why it is in the car. We use nothing in the WISCO but recognized high grade standardized parts, making always for the perfect car.

We will gladly send our car to bring you to the factory if you are interested. A postal or phone call will bring the car.

WE DESIRE TO ADVISE THE PROSPECTIVE AUTOMOBILE BUYERS IN JANESVILLE AND ROCK COUNTY WHO WISH TO TAKE ADVANTAGE OF BUYING A CAR MADE AT HOME, THAT IT WILL BE NECESSARY TO PLACE YOUR ORDER FOR THE WISCO CAR WHILE WE ARE IN A POSITION TO MAKE EARLY DELIVERY, BECAUSE WE, LIKE OTHER MANUFACTURERS, WILL BE PUSHED TO THE UTMOST IN A SHORT TIME TO FILL OUR CONTRACTS WITH OUR DEALERS.

PUMP ON THE MILK BOTTLE

The Contents Withdrawn Without Possibility of Any Contamination.

In the effort to prepare the baby's

milk with the least possible amount of

exposure it has become the custom to a

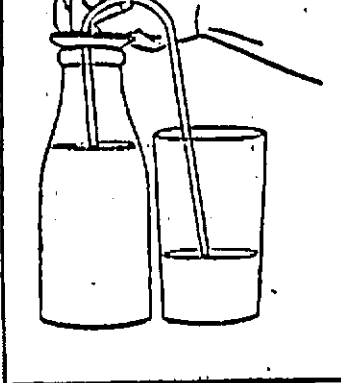

considerable extent to use a siphon in

drawing of the milk from a bottle. The

idea is a good one, but unfortunately

a great deal of damage was done through

the ignorance of mothers and nurses in

SANITARY SIPHON ON THE MILK BOTTLE.

starting the flow of the siphon by suck-

ling one end and so on to draw the milk up

through the tube.

An automatic means of drawing off the

contents of a bottle has been devised, and

is shown in the accompanying cut. In

this the milk is forced out, not by suck-

ling, but by compression of the air in the

bottle. The device consists merely

of a cup of rubber mounted on the

siphon tube and arranged to rest on the

mouth of the milk bottle. The neck of

this cup is forced downward, carry-

ing the tube with it, until the cup is

virtually inverted. While the cup is

being pressed down the air in the top of

the bottle is compressed, thus forcing

the milk up through the tube without

bringing the rubber into contact with

the milk. The siphon then continues to

run.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

"How strong and well you look," someone said to me a day or two ago.

It has been a tonic to me ever since. I once heard of a man who was told by so many people that he looked ill, that he finally was convinced that he must be ill.

People no longer tell you how well you look. If you have been up late or overdoing or anything like that, there is always someone to say, "What have you been doing to yourself?" or "You look terribly," or "You'd better look out or you'll be sick," but how seldom anyone says "How well you look."

Why not be original and reverse the process? Why not say nothing at all on the subject of looks unless you can say something pleasant, but when you can say something pleasant, never miss the chance.

Try it sometime. Salute someone as I was saluted—"How strong and well you look."

You know it can't do any harm and you don't know how much good it may do.

"Well, I shouldn't think the L's could afford a telephone. They live very simply and they dress almost shabbily. I should think Mrs. L. would rather have an occasional new suit than a telephone."

Haven't that remark a familiar ring? I don't mean in substance but in spirit.

If you live with, or are an average woman, I'll wager it has. For rare indeed is the woman who doesn't occasionally find it incumbent upon her to criticize the way her neighbor spends her money.

And isn't it absurd? If your neighbor, provided she pays her debts and does her duty towards her less fortunate fellow beings, chooses to spend her spare money for a yellow carpet bag or two or three tons of pickles, what is that to you?

And what right have you to say she is extravagant? The only extravagance is in not getting as much pleasure or utility out of any sum of money as you could have by spending it at some other place or in some other way.

And how on earth are you to judge of what is pleasure or utility to your neighbor?

When I visited Vassar college not long ago I was deeply impressed by one thing and that was the custom of having the regular Sunday night chapel preceded by an hour of twilight music.

The huge chapel is left entirely in darkness. The girls drift quietly in from time to time. The later service is compulsory, while this is not and yet practically all the girls attend it.

The music is always of the best, of course—produced by a skillful organist or a beautiful singer—and out of the twilight it comes with a doubled beauty.

I like the silent church before the service begins better than any preaching. Emerson said once:

I am sure he would have liked Vassar's chapel in the music filled twilight even better than the silent church.

I cannot imagine any more peace-bestowing service than this twilight music hour. I think it would appeal to many who do not enjoy formal services and I think every church in the land would do well to adopt it.

FENTON B. TURCK JR.

BOY SCIENTIFIC PRODIGY—FENTON TURCK, JR., 7-YEAR-OLD SCIENTIST.

Chicago, Ill.—This is truly an age for scientific phenomena. No conducts

of young men. It has been conceded

during the last decade that men of 20

and under were just the ones to as-

sume the responsibilities and honors

formerly given to men of 60. What

will the next generation bring forth?

Only a few weeks ago in Harvard a

had established the world by his discov-

ery of mathematics. Now Chicago

has discovered a boy not yet seven

years old who is an expert biologist.

This is the son of Dr. Fenton B.

Turck. Ever since he was old enough

to observe he has been on the lookout

for scientific phenomena. He conducts

his own experiments from slides made

by himself and explains these in sci-

entific terms beyond the grasp of men

not familiar with scientific words.

His nursery is filled with all sorts

of living things from both the animal

and vegetable kingdoms. Recently he

carried home with him specimens of

water from Lincoln park and Jackson

park for comparison. He has made

many slides in the course of his ex-

periments and these his father and

mother prize highly. It is thought he

will be able to take his doctor's de-

gree long before he is 14 years old.

brother, Congressman Morris Shep-

pard of Texas, and has attracted un-

usual attention in social circles dur-

ing her sojourn in Washington.

SUCCESS.

By MARY RUSSELL.

When a story of success is wanted it is the custom to pick out a man or

woman who has either made a great invention, written a great book or accumulated a fortune in some of the many ways open today.

To be "a success" is to have made a "ten strike" in the world and reaped the benefits. One may even be a successful thief or swindler and so get a heap of praise for the skill with which the nefarious calling has been pursued.

Is money the measure of success? It does not seem so. The world is full of people who are successful who will never be known outside of the small circle which knows and loves them. They are the people who do their work in the world bravely and uncomplainingly. People who do work that may not be pleasant, or agreeable, for love of some one dependent upon them. These are the ones that should be crowned with loving words and kindly thoughts.

I know a man who is over 70 years old who has, perhaps, been a failure in the eyes of the world, inasmuch as he is not as well off financially as he was many years ago, and must work for a salary as a traveling man. But to those who know him he is one of the most successful of men. Born with a strong will and never taught self-control, he has learned it for love of the stern parent. The stern parent has given place to the loving father and friend.

An inherited selfishness has been eliminated from his heart, and for love's sake he goes about his business cheerfully and bravely with never a word of complaint or dependency. He comes into his home with a smile and a word of good cheer that makes his presence a benediction to those that come within the radius of his love and good fellowship.

Isn't that man a success after all? Isn't his the greater conquest—the conquest of self for love of others?

Surely we do not look at the world aright if we count only worldly wealth as the standard of real success.

The man or woman who so lives that the world is better for his or her living, that man or woman is a success!

The man or woman who conquers selfishness and high temper for love of others, that man or woman is a success! More successful than the great captain of finance.

And surely those that bring with them the atmosphere of good cheer under all circumstances are the very salt of the earth!

Don't get out your field glasses when looking for successful men and

women. Perhaps the greatest hero or heroine you will ever come in contact with is within your own home circle.

SEEKS NEWS OF THE

RAILROAD'S PROJECT

Executive committee Will Send Representative to Chicago to Consult With St. Paul Officials.

If the Chicago, Milwaukee and St. Paul railroad plans to place Janesville on the main line between Kansas City and Milwaukee, with a possibility of establishing a branch line to the city, the Janesville, Wis., Commercial club want to do all in its power to aid the work.

At a meeting held in the library of the Gazette Printing Company, yesterday afternoon of the executive committee it was decided to send a representative to Chicago to consult with the officials of the St. Paul road and find out in what manner Janesville can aid the project.

If such a move is seriously contemplated by the railroad as the reports current in railroad circles plan for it means a big thing for this city and the executive committee of the local club see a great possibility for increase, not only in population but in importance for the city as a railroad center. The new yards would mean that a large number of men would make their headquarters here and that the through traffic rates to the west for local shippers would be much more easily adjusted.

With the Northwestern yards south of the city and the possibility that all the things and in probability that the importance will increase as the Northwestern decides to handle more freight here in the near future owing to the facilities the addition of a new railroad terminal to the city's business interests would be a great addition to the future prosperity of Janesville.

The executive committee of the club also considered the question of a permanent secretary and letters from Lucius C. Wilson of the Des Moines club were read in which he advises the local organization to select a good booster rather than merely a traffic man. It was also decided to have data prepared relative to the shipments of the local factories for a campaign for lower freight rates from Janesville when the time comes.

"THREE TWINS" PLAY

RETURN ENGAGEMENT

Popular Musical Comedy Amuses Large Audience at the Myers Theatre Last Evening.

Hearty appreciation from a packed house greeted the "Three Twins" in their return engagement at the Myers Theatre last night. The second appearance intensified the good impression made by the triplets when they first showed here.

In spite of the fact that the show has been on the road for many weeks and that everyone knows all about the next star, this musical comedy has a hold on the popular fancy that is hard to explain. One of the reasons for this, is that the production is run down in any particular. The scenery, costumes and chorus, except for the wear and tear of road work, are fully up to the standard set by the original production.

In staging the play, the owners have provided a large and agile chorus, the male members of which really can sing, good scenery and an excellent orchestra. Of the stage effects, the dancing duets, the faceograph and the electric sawing at the close of act one made their usual hit.

With regard to the principals, it is hardly probable that they could carry a poor chorus as well as the chorus carries them. Evelyn Dunmore as "Kate Armitage" sings beautifully, in fact is the only one of the cast who really merits commendation on the score. Edward Wade as "General Stanhope" and Henry Schuman-Holck as "Dr. Hartman" etc., are good in their respective parts. Wade especially is a son of the well known grand opera star, Madame Schuman-Holck.

Florida Secantman, who as "Molly Sammons" always happy, danced the hypnotic waltz and the Yama dance, was a decided hit. She has a wide smile, an engaging personality and dances very gracefully. Thomas Whitlin, who attempted to emulate Victor Morely who created the part of "Tom Stanhope, the odd twin, was funny in a flip sort of a way. His singing was not very good but he danced easily and well and brought the laughs.

Between acts, selections from Jos. M. Galters' latest success, "Bright Eyes" were rendered by the orchestra.

INITIATE LARGE CLASS AT THE MEETING OF THE MOOSE

Lodge Now Has Over Four Hundred Members—Banquet on the 8th of This Month.

At the meeting of the Janesville Lodge of the Loyal Order of Moose last evening the total membership was increased to four hundred by the initiation of a large class of candidates. Plans for the banquet were discussed and the initiation fee was raised to \$15 after the 11th of the month when the charter closes. The location of the new club rooms was decided upon and the location will be made public at the banquet.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be lost forever. Catarrh of the Eustachian tube is caused by cold, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Catarrh Cure. Send for circulars, free.

RECENT SPECIMENS

OF FINE PRINTING

Catalogues and Other Artistic Press Work Have Been Printed by the Gazette Printing Co.

Several very fine pieces of work have recently been completed in the printing department of the Gazette which are worthy of mention. Among the larger productions is a catalogue for the Janesville Machine Co., of 166 pages and a repair list of 221 pages, both jobs with two- and three-colored covers. Both pieces of work are nicely illustrated and embody a great deal of hard careful work on the part of the printers. A large run of 20-page catalogues for the Janesville Co., with a four-color cover from a handsome design, together with a quantity of other work of high grade; a large lot of two-color display cards together with large quantities of two-color work for the Hough Shingle Corporation; a 48-page catalogue with two-color cover for Meloy Bros., as well as a 24-page catalogue with three-color cover for Alex. Cathrath & Son, are also included in the larger work. Both of the latter books are handsomely illustrated with fine half-tones of thoroughbred horses. A large run of "Side Talks," published by the Parker Pen Co., together with other half-tone work for this concern, have been produced. A 24-page catalogue for the Smith & Holton Co., with a two-color cover was turned out. An especially handsome catalogue for the Wisconsin Carriage Co., the inside of which was done in two colors and illustrations being of very fine half-tones, was produced with the aid of the new zinc-overlay, which brings out the printing quality of the entire product. This book was enclosed in a two-color cover and bound with silk cord. Price lists have also been furnished for this same concern.

The Janesville Carriage Works have just secured 12,000 handsome two-color folders on very fine half-tone stock, together with other high-grade work. A loose leaf catalogue was recently furnished the J. C. Nichols Harness Mfg. Co., consisting of 110 pages in two colors with a two-color cover. Additional pages for this book can be furnished at intervals without necessity of rebuilding the entire book. A price list with three-color cover for the Bussett & Echlin Co. is an attractive piece of work with a supplement to the Hanson Furniture Co. catalogue together with price lists have also come out.

A quantity of work for the Janesville Barb Wire Co., including the monthly issue of "Fence Facts," a play list book which goes to that company's customers, is printed in two colors and is very handsome printing.

The monthly issue of the Wisconsin Medical Recorder, which is edited and published by Dr. J. P. Thorne of this city, is another good piece of printing. This book consists of some eighty pages full of good material for the physician.

Quantities of other work have been completed for Janesville and its surrounding cities and the equipment of the Gazette is such as to make it the best in the country for executing first class printed matter. Those interested in high-grade printing are invited to inspect the work rooms of the Gazette at any time.

RELIGIOUS

BY REV. FRED BRITTEN.

Rev. E. Britten, born in Livingston county, March, 1860. Graduated University of Michigan, 1882; degree A. B. Thirteen years in Baptist pastorate in Minnesota, Iowa, Nebraska and Michigan. Three years professor of psychology and ethics, General University of Iowa. Four years at head of prohibition work of state of Michigan, 1898-1902. After that, preacher of Gospel Prohibition association of Boston, Mass. Residence, Cambridge, Mass.

Rev. 3:20. "Behold, I stand at the door and knock; if any one hear my voice and open the door I will come in to him and I will sup with him and he with me."

What does it mean to be a Christian? You say, "to believe on the Lord Jesus Christ." Is that all? "To be a disciple of Jesus Christ." Is that all? To profess Christ and conform one's life to His teaching and example. Is that all? A man accepts certain dogmas and tends and strives to identify himself with those doctrines and certain accepted standards of living. Is that your idea of what it means to be a Christian?

Let me show you a better definition. It is true that a Christian believes, becomes a disciple, professes Christ, accepts certain doctrines about Christ, certain standards of living and strives to conform his life to those doctrines and standards; but when he has done all this he may be only the shell of a Christian, thin, hard, empty.

There is an unseen world that is just as real as the seen. There are unseen potencies that are even more mighty than the seen. There is a spiritual world as well as a material world, and the spiritual is within, forms, moves and controls the material world. God is not a mechanic, putting the world together as man manufactures a watch, nor an engineer directing the world from without, but an all-pervasive spirit. God is not at the center of the universe, operating by a system of wires or some other mechanical contrivances. God is everywhere, in earth, in heaven, in hell alike. He makes the clouds and rides upon the winds. His life is the life of all things. His spirit is within and without, above and beneath. "Whither shall I flee from thy presence?" Or "whither shall I flee from thy presence?" If I ascend up into heaven, thou art there. If I make my bed in hell, behold thou art there. If I take the wings of the morning and dwell in the uttermost parts of the sea; even there shall thy hand lead me and thy right hand shall hold me.

God is immanent in nature. Men talk much of the natural and supernatural. What is the difference? I know a difference between the material and the body and the life; but all the supernatural is natural, and all the natural is supernatural. "God is in it all."

We are accustomed to apply my text to the so-called sinners, meaning the rejecters of Christ's saving grace. Note the error. These words were written to the backslidden church in Laodicea, whose members were neither cold nor hot, but lukewarm, (Greek nauseating), uninterested and unloving. To those the Unseen saith, "Behold I stand at the door and knock. If any one hear my voice and open the door, I will come into him and I will sup with him and he with me." And then, as if to encourage them by indicating what His presence will do for him, "He that overcomes, I will give to him to sit down with me in my throne."

Scene 1.—Unseen Presence outside and knocking for admission at the formal Christian's door.

Scene 2.—The door opened. The Unseen Presence within moving and warning the soul—the backslider revived.

AN OLD RESIDENT OF ROCK COUNTY WAS LAID AT REST

Peter Hadley, Aged Ninety Years, Buried At Evansville Yesterday Afternoon.

[SPECIAL TO THE GAZETTE]

Evansville, March 4.—The funeral of Peter Hadley who died Tuesday, March 1, at the home of his daughter, Mrs. Ella A. Dowse on Madison St., was held in the Free Baptist church this afternoon at one thirty o'clock. The services were in charge of Elder W. A. McDowell and the cemetery near his old home in the town of Porter, Miss. Family graves sang "Face to Face" and "Abide With Me" and "Mourning John Sperry, E. Gabriel, Chas. Sperry, Myron Kyon, Christian Johnson and Mr. Moore were the bearers. Mr. Hadley was ninety years of age and his death removes another of the earliest and most widely known settlers of the county. He was born at Hancock, Vermont, Dec. 19, 1819 and lived in the East until 1847 when he came to Wisconsin and settled on a farm in the town of Porter. Mr. Hadley was married to Miss Samantha C. Pratt on May 20 1847 and to this union four children were born: Mrs. Ella Dowse of this city, Mrs. S. K. Foye, Linn Springs, Iowa; W. H. Hadley, Madison and Herbert Hadley, Hatley, Wis. He is also survived by one brother, Andrew Hadley of Janesville.

Mr. and Mrs. Stewart Hadley of Janesville were here today to attend the funeral of Mr. Hadley.

Miss Ella Hubbard died at the home of her brother, Frank Hubbard, last evening at eight-thirty o'clock. Miss Hubbard had been seriously ill only a few days and to her many friends the announcement of her death came as a great shock. She was fifty-two years of age and had lived nearly all her life in Evansville and for many years has made her home with her brother. The funeral services will be held at the house Saturday afternoon at two-thirty o'clock, Rev. F. W. North officiating.

Fred Smith, a young man twenty-nine years of age, died at eleven o'clock last night at the home of his parents, Mr. and Mrs. Warren Smith, who reside on a farm west of Evansville. Besides his parents he leaves five brothers and one sister: Floyd, Harmon, Eddie and Irene, all living at home; William, of Dakota and George of Footville. Mr. Smith is a nephew of Mrs. Leon Franklin and Mrs. E. M. Fairbanks and a cousin of Mrs. Ray Carpenter, all of this city. The funeral will be held at the home Sunday afternoon at half past one.

An unusually pleasant time was had last evening at the party given by Miss Nellie Devine at the home of her brother, Arthur Devine. The guests were the Sophomore class of the High School and about twenty were present. Aside from the usual games and other forms of entertainment an amateur play called "The Country Cousins" was presented in a highly creditable manner and furnished much amusement. The young actors each took the part assigned so aptly that it was hard to believe that they were but amateurs and the very appropriate costumes they wore made the play seem more real. The characters were taken as follows:

Lizzie Twist, a New York society lady; Estelle Therman, Miss Clara Deans, her bosom friend, Nellie Devine; Country cousins, the Misses Jane Carlton, Bell Green, Kate Carlton, and Olive Laddington.

BACKACHE GOES AND KIDNEYS ACT FINE AFTER TAKING A FEW DOSES

Out-of-order kidneys are regulated and the most severe bladder misery vanishes.

No man or woman here whose kidneys are out-of-order, or who suffers from backache or bladder misery, can afford to leave Pape's Diuretic untried.

After taking several doses, all pains in the back, sides or loins, rheumatic twinges, nervousness, headache, sleeplessness, influenza or swollen eyelids, dizziness, tired or worn-out feeling and other symptoms of clogged, sluggish kidneys simply vanish.

Uncontrollable urination (especially at night), smarting, discolored water and all bladder misery ends.

The moment you suspect the slightest kidney or bladder disorder, or feel rheumatic pains, don't continue to be miserable or worried, but get a fifty-cent treatment of Pape's Diuretic from

your druggist and start taking as directed, with the knowledge that there is no other medicine at any price, made anywhere in the world, which is so safe or will effect so thorough and permanent a cure.

This famous Pape's Diuretic goes direct to the cause of all kidney troubles, cleansing, healing and vitalizing influence directly upon the organs and glands affected and completes the cure before you realize it.

A few days' treatment of Pape's Diuretic means clean, healthy, active kidneys, bladder and urinary organs—and you feel fine.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Accept only Pape's Diuretic—fifty-cent treatment—any drug store—anywhere in the world.

Did You Ever See the New Gall Cure Collar?

It is without question the best hair stuffed collar made. It is made by taking a pad of genuine curled hair 5 inches thick formed over a layer of cotton, into a pad. The collar is built over this hair pad in such a way that the curled hair pad is separated from the skin of the horse by the leather or fabric of which the face of the collar is made. The result is that it is impossible to gall a horse if the collar fits.

The curled hair pad will hold its shape until the collar is worn out. The sweat from the animal will rot straw or cotton, but curled hair never changes. A Gall Cure Collar is constantly ventilating itself, thereby giving it double life.

A Gall Cure Collar with russet leather face, all thong sewed, faced with Gall Cure Curled Hair pads with cloth lined, sole leather caps, double strength throat, hand finished about 15-inch draft. \$3.50

Gall Cure Collar, same as above, 17-inch draft. \$4.00
Truck Case Gall Cure Collar, 17-inch draft. \$4.50
